

# Help us keep you safe - cleaning top tips

Document all cleaning activities on a cleaning schedule.

Follow COSHH (Care of Substances Hazardous to Health) guidance and cleaning product manufacturer's instructions.

## Detergents

Use products such as Hospec or detergent wipes.

## Disinfectants

- Use a chlorine-based disinfectant solution, e.g. Milton, used at a dilution of 1,000 parts per million (ppm) for environmental cleaning.
- Some disinfectant products contain both a detergent and a disinfectant, e.g. Chlor-Clean tablets, Actichlor plus,
- Use a detergent & disinfection wipe such as Clinell Universal Wipes, PDI Sanicloth Universal and Vernacare Tuffie 5.

Wear PPE when undertaking cleaning tasks and undertake hand hygiene as per the national policy
