

Digitisation in Social Care

The collaborative three year project between Somerset Council and NHS Somerset reaches its second year.

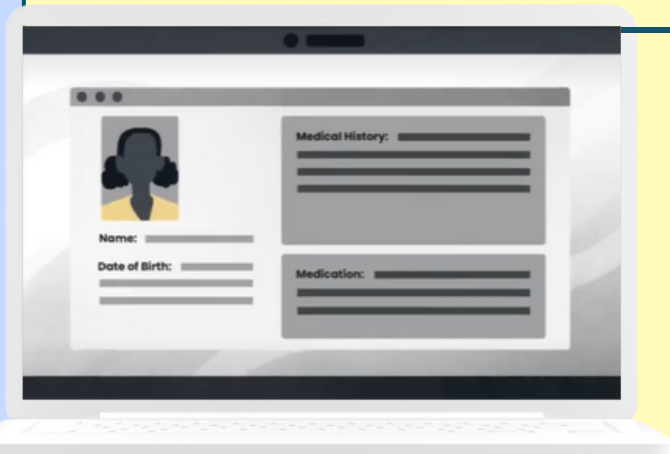

! WEF 01 June 2023 the grant funding will be capped at £4711.62 per CQC registered organisation.

DSCR is saving time...

A **digital social care record or DSCR** keeps the information you would normally create on paper, on an electronic form, held securely and easily accessible for staff and managers in a timely manner.

DSCR can save **164 hours per year per resident**.
We have actively saved **255,840 hours** this year.

With data entry times going from **45 minutes per resident per day** to **18 minutes per resident per day**.

” I have a dyslexic member of staff who reports that the speech to text is a revelation in terms of her ability to record care.

DSCR Digital Social Care Records

Are you operating a CQC (Care Quality Commission) registered service with an interest in improving your digital systems? Contact DISC email or your local Digital Outreach Team.

For more information visit the website [Assured Supplier List for social care | Digital Social Care](#) or email us at digitisationinsocialcare@somerset.gov.uk

IN THE FIRST YEAR **DSCR** HAS POSITIVELY IMPACTED **1560 LIVES ACROSS 30 CARE HOMES**.
