

- Do you work with people in your local community?
- Are you worried about how they will cope this winter at home?
- Would you like to be able to offer them more support around staying warm and keeping the bills down?

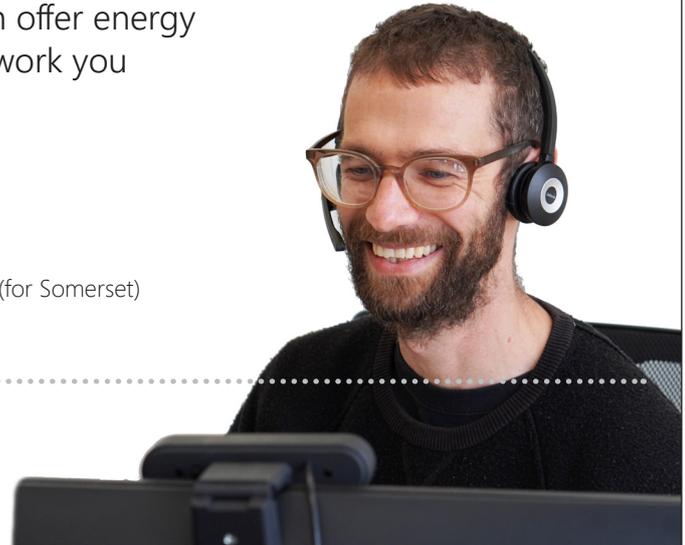

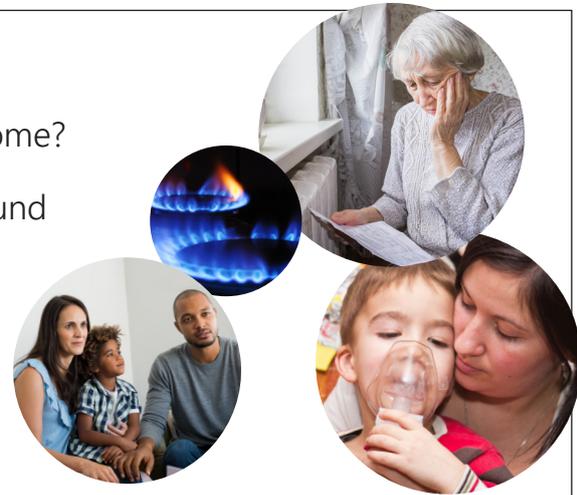

Join the Rural Communities Energy Support Network

You'll gain access to training and resources so you can offer energy saving advice to your service users in addition to the work you already do to support them.

To join the network, use the QR code or go to www.cse.org.uk/rcesn

Or email safeandwarmsomerset@cse.org.uk (for Somerset)
or warmandsafe@cse.org.uk (for Wiltshire)

Working in partnership with

Wiltshire Council
